# 360° VIEW OF PRODUCT

Laminate sheets are something that you'll need if you're renovating or building someone new from scratch. We live in a time where people work remotely and possibly from home, and they want to feel good when they are in their homes for most of the time of their day. Or if you are looking to fit these laminates in your office, café, or building, these laminates will help them feel good and light all the time. However, choosing the right laminates according to your space and its layout is difficult and sometimes people make mistakes choosing the laminates and it eventually ruins the whole décor. Worry not, we have a complete digital solution for this problem, and we offer a complete 360° laminate view of every variant of our laminates so that you can choose the best laminates for your space and see how it will actually look in your ambiance.

## PRODUCT INFORMATION AND WARRANTY

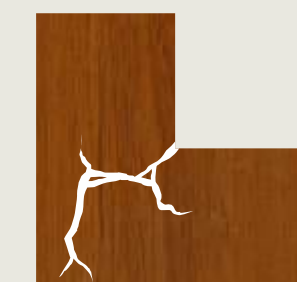

Technical Name	Decorative High Pressure Laminate
Size	1220 mm X 2440 mm (8' X 4')
Thickness	1 mm (Other thicknesses may available on request)
Quality Standard	Accomplish requirements of IS: 2046 (BIS)
Warranty	Arica warrants that their products are free from any manufacturing defects and is suitable to utilize for normal and usual purpose only. It is recommended that the product should be inspected prior to installation. If found any visual defects, the product should not be used, cut or altered in any manner. Warranty will be limited to cost of the products only and no claims will be entertained after fixing, alteration or used of the product.
Note	Samples presented are indicative in all aspects i.e., colour, pattern, surface finish, thickness, etc. High gloss sheets are recommended for vertical application only. Other Combinations of colour, pattern and surface finish are available on special request.

## PROTECTING THE SURFACE

<b>Scratch and Impact Protection</b>	Don't place lighted cigarettes directly on laminate surface. Knives or other sharp utensils may slice or scratch the surface. Don't chop, slice, pound or hammer on any laminate surface. Avoid ironing or placing a hot iron on laminate surface. Hot cookware should not be placed directly on laminate surface. Heavy blows of hammer or metal may crack the laminate surface.
<b>Ordinary Cleaning</b>	In most cases, only need to use a clean, damp, non-abrasive cotton cloth and a mild liquid detergent or household cleaner and rinse with clean water. Don't flood the laminate since water can be absorbed and results substrate to swell. Dry the surface with a soft, clean and non-abrasive cotton cloth.
<b>Chemical Damage</b>	Never use cleaners containing acid, alkali or sodium hypochlorite. These cleaners will mar, etch, corrode and permanently discolour the laminate surface. Also make sure that bottles, rags and other materials contaminated with these cleaners never come in contact with the laminate surface.

## DIRECTION OF USE

Before using laminate please ensure that the surface of plywood and laminate are clean, dry and free of other contaminations.
Please well stir adhesive before use and don't add water in it. Also ensure that applied adhesive is sufficient or not?
Once laminate pasted on plywood surface don't forget to apply adequate pressure for perfect bonding. To remove air bubble from assembly use roller press from centre of assembly towards edge of assembly.
A gap of minimum 2 mm should be maintained between two laminates while pasting side by side.

NO CLAIM WILL BE ENTERTAINED FOR CRACK ARISING OUT OF GROOVE CURRYING OR L SHAPE

NO CLAIM WILL BE ENTERTAINED FOR AIR BUBBLES
